LLOYD'S REGISTER OF BRITISH & FOREIGN SHIPPING.

FREEBOARD OF SHIPS.

In connection with the Freeboard assigned to Ships under the Tables issued by the Committee of this Society, a Table has been compiled giving the weight in ounces per cubic foot of samples of sea and river water, taken from the places enumerated therein.

DRY DOCKS, ETC., AT ALL PORTS IN THE WORLD.

For the information and convenience of the subscribers to the Register Book, and owners of ships classed therein, the Committee have had compiled a Table of the Dry Docks, Floating Docks, Pontoons Patent Slipways, &c., at all Ports in the world, so far as particulars can at present be ascertained.

The Tables above referred to will be found in the Appendix to the Register Book. They are also published in a separate form, as a Pamphlet, at a charge of 1s. per copy. This Pamphlet can be had on application to the Secretary.

By order of the Committee,

B. WAYMOUTH,

Secretary.

LLOYD'S REGISTER OF BRITISH & FOREIGN SHIPPING.

[Established 1834.]

YACHT REGISTER.

1883-84.

NOTICE IS HEREBY GIVEN that this Society's Register of British and Foreign Yachts—for the year 1883-84 was issued on the 1st May.

The book contains, in addition to the Names, Class, and other useful information relating to Yachts classed by the Society, the Names, Dimensions, &c., of all British and Foreign Yachts, the particulars of which are known; also, in an Appendix, a List of the various Yacht Clubs and Illustrations of their respective Flags, an Index of Signal Letters, a List of Yachts which have had Names changed, and an Alphabetical List of the Names and Addresses of Yacht Owners so far as they can be ascertained.

The Society's rules and suggested scantlings for the building of Iron, Wood, and Composite Yachts intended for classification are comprised in the volume.

The terms of Subscription are half a guinea per copy for individuals or firms; and for Yacht Clubs, Marine Assurance Companies, and other public bodies, not less than two guineas per annum, for which two copies of the work will be supplied.

By order of the Committee.

B. WAYMOUTH,

Secretary.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

CIRCULAR, No. 305.

AWNING-DECKED STEAMERS.

It being a condition in the Rules of Lloyd's Register of British and Foreign Shipping, that "*in Awning-decked vessels there must be scuppers and ports at the main deck through the side, to discharge water*," and it having come to the knowledge of the Committee that in certain cases the scuppers and ports have been permanently closed, in contravention of the above Regulation, and the Committee having expunged the Character assigned to a vessel which has been so dealt with :—

NOTICE IS HEREBY GIVEN to the owners of Awning-decked Vessels classed in Lloyd's Register Book, that in any cases brought to the knowledge of the Committee of the closing of the scuppers or the securing of the ports in such vessels, contrary to the Regulation in question, they will immediately suspend the Character assigned to them.

By order of the Committee,

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING, BERNARD WAYMOUTH, *Secretary.*

No. 2, White Lion Court, Cornhill, London, E.C., 27th February, 1873.

No. 314.

AWNING-DECKED VESSELS.

NOTICE IS HEREBY GIVEN that, with reference to the Rule requiring that "*in Awning-decked vessels there must be scuppers and ports at the main deck through the side, to discharge water*," the Committee have passed the following Resolutions, viz :

"In the case of the vessels *now* building, provided *every* frame be extended to the awning deck and a load-line submitted to the Committee be aproved by them, ports and scuppers may be dispensed with."

"In all cases in which, in consequence of a *load-line* having been agreed upon as the ground for dispensing with ports and scuppers, should the vessel's draught in *salt water* exceed that indicated by the load-line, she shall cease to be entitled to a class in the Register Book, whilst so loaded ; and in all cases where a class has been assigned to a vessel having ports and scuppers, such class will be forfeited if the ports and scuppers be closed."

"The load-line so agreed to by the General Committee is to be inserted in the *Certificates* and in the *Register Book*."

"Awning-decked Ships which have *already* been allowed to have ports and scuppers closed, are to have their load-line inserted in their Certificates of Classification, and recorded in the Register Book."

By order of the Committee,

No. 2, White Lion Court, Cornhill, London, E.C., 21st August, 1873. BERNARD WAYMOUTH, *Secretary.*

CIRCULAR, No. 340.

AWNING-DECKED STEAMERS.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING,

No. 2, White Lion Court, Cornhill, London, E.C., 8th December, 1875.

.....

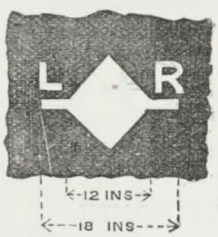
With reference to the Notices, numbered 305 and 314, issued by the Committee of this Society in February and August, 1873, calling attention to the conditions under which Awning-decked Vessels are classed in the Register Book, I am directed, in forwarding to you copies of those Notices, to acquaint you that the Committee, having become aware that the condition on classification, that the Ports and Scuppers at the main deck must remain open for the discharge of water, continues to be contravened, have resolved, that in *all* cases of Awning-decked Vessels classed in the Register Book, a load-line shall be determined on for them, to be marked on the Ship's side, and recorded in the Register Book and on the Certificate of Classification.

Under these circumstances, I am to request you will submit to me for the Committee's consideration the load-line you suggest for adoption in the case of your Iron Screw Steamer.....

I have to add, that in every instance of non-compliance with this requirement within six months of the date hereof, the character of the vessel will be expunged from the Register Book. I am,.....

Your obedient Servant,

(*Signed*) B. WAYMOUTH, *Secretary.*



CIRCULAR, No. 354.

AWNING-DECKED STEAMERS.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING,

No. 2, White Lion Court, Cornhill, London.

.....

To be White or Yellow on a dark ground, or black on a light ground.

With reference to the Circular Letter, numbered 340, issued by the Committee of this Society in December, 1875, conveying their Resolution, that in all cases of Awning-decked Vessels classed in the Register Book, a load-line shall be determined on for them, to be marked on the ship's sides, and recorded in the Register Book and on the Certificate of Classification, I am to acquaint you that the Committee having understood that the above requirement as to the marking of the load-line on the ship's sides has not in all cases been complied with, they hereby call attention thereto ; and I am to add that the mark decided upon by the Committee, to be painted on each side of the ship as nearly amidships as practicable, shall be a diamond with a bar at each end, having the letter L above the left bar and the letter R above the right bar, as herein illustrated.

The centre of the bar to be the load-line. I am,.....

Your obedient Servant,

B. WAYMOUTH, *Secretary.*

CIRCULAR, No. 369.

AWNING-DECKED STEAMERS.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING,

No. 2, White Lion Court, Cornhill, London, E.C., 4th January, 1877.

.....

I beg to refer you to my letter of the 8th December, 1875, with its enclosures (and of which I now transmit copies), acquainting you with the Committee's determination to expunge from the Register Book the Character assigned therein to the Awning-decked Screw Steamer.....unless a load-line be approved by the Committee for this vessel, and be marked on the ship's sides, and recorded in the Register Book and on the Certificate of her Classification ; and I am to add that in the absence of a reply thereto, the Committee feel it to be out of their power to continue the character of the vessel in the Register Book, and that unless a satisfactory reply be received prior to the reprinting of the book in April next, the vessel's character will be expunged therefrom by a red line.

I at the same time enclose a circular letter, Numbered 354, showing the form of mark decided on by the Committee for the ship's sides. I am,.....

Your obedient Servant,

B. WAYMOUTH, *Secretary.*

No. 472*

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

FREEBOARD.

AWNING-DECKED VESSELS.

With reference to Notice No. 471*, on the Freeboard of Vessels,

NOTICE is hereby given that, in regard to awning-decked vessels already classed or being built for classification in the Society's Register Book, the Owners of such vessels will be allowed the option either of retaining the mark prescribed in Circular No. 354 for indicating the load line of awning-decked vessels, or of having their vessels marked in accordance with the conditions of the following paragraphs, numbered 1, 2, and 3.

In respect to awning-decked vessels built, or contracted for, after six months from the date of this notice, the marking as prescribed in Circular No. 354 will be discontinued, and to entitle vessels of this description to classification in the Society's Register Book, the following conditions shall be complied with, in addition to the requirements set forth in Section 43 of the Society's Rules for Iron Vessels, viz. :—

1.—The maximum load-line in *salt* water determined by the Committee shall be adopted by the Owner as the load-line required by the Merchant Shipping Act of 1876 to be marked on the sides of the vessel.

2.—The maximum draught in *fresh* water will also be determined by the Committee, and is to be indicated by marks painted above the maximum load-line in *salt* water, as shown in the illustration to the following paragraph.

3.—The letters **L R** shall be painted on the sides of the vessel, one before and the other abaft the bar passing through the disc required by Act of Parliament, as per sketch, and the position of the disc and bar shall be further permanently shown by centre-punch marks, thus :—

The Freeboard to the main deck and awning deck, as defined by the position of the maximum load-line in salt water, will be recorded in the Society's Register Book.

By Order of the Committee,

BERNARD WAYMOUTH,

Secretary.

No. 2, White Lion Court, Cornhill, London, E.C.

11th January, 1883.

N.B.—It is a condition on which an awning-decked vessel is classed in the Society's Register Book that the freeboard assigned shall be marked on the vessel's sides as above prescribed ; and, under the provisions of Section 43 of the Society's Rules for Iron Ships, if the vessel be loaded to a greater draught of water than that assigned by the Committee, or if the mark indicating the maximum load draught be placed higher than the position assigned by the Committee, the vessel will thereby forfeit her Character in the Register Book.

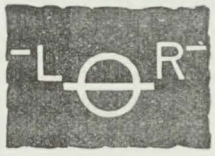
No. 471*

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

FREEBOARD.

The Committee of this Society have for some time past given the subject of the Freeboard of Ships serious consideration with a view to assigning maximum load-lines to all types or classes of vessels, and have used all available means to arrive at a satisfactory basis on which to deal with a question so important to the Mercantile Marine.

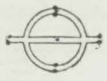
Having completed their deliberations on the subject, the General Committee, at a recent special meeting, comprising members representing various ports of the country, gave their approval generally to the system embodied in the Tables and Rules, dated 10th August, 1882, submitted to them as a basis for determining a load-line for any description of vessel.



NOTICE is therefore hereby given that, on and after the 1st October, 1882, the Committee when requested by the owner of a vessel, whether she be classed in the Society's Register Book or not, to assign to her a load-line, will be prepared to accede to such request, provided the following conditions be complied with, viz. :—

1.—The request shall be in writing.

2.—The Owner shall state in the form of request what in his own opinion would be a suitable load-line for the vessel for which he wishes the Committee to determine a Freeboard.



3.—The vessel shall, if required, be surveyed in dry dock by one of the Society's Surveyors, who will report to the Committee before the load-line is determined.

4.—The maximum load-line in *salt* water determined by the Committee shall, if accepted by the Owner, be adopted by him as the load-line required by the Merchant Shipping Act of 1876 to be marked on the sides of the vessel.

5.—The maximum draught in *fresh* water will also be determined by the Committee, and is to be indicated by marks painted above the maximum load-line in *salt* water, as shown in the illustration to the following paragraph.

6.—The letters **L R** shall be painted on the sides of the vessel, one before and the other abaft the bar passing through the disc required by Act of Parliament, as per sketch, and the position of the disc and bar shall be further permanently shown by centre-punch marks, thus :—

The Freeboard to the main deck or spar deck, as the case may be, and to the main deck and awning deck in awning-decked vessels, as defined by the position of the maximum load-line in salt water, will be recorded in the Society's Register Book.

By Order of the Committee,

BERNARD WAYMOUTH,

No. 2, White Lion Court, Cornhill, London, E.C. *Secretary.*

11th January, 1883.

N.B.—The Freeboard assigned by the Committee is not to be considered suitable or sufficient if the vessel be engaged in the North Atlantic trade sailing to, or from the Mediterranean or any European port, or sailing from, or calling at ports in British North America or eastern ports in the United States north of and including Baltimore, from October to March inclusive, but should be increased as provided for in the Tables of Freeboard.

SUBSCRIBERS

whose names have arrived too late for insertion in alphabetical arrangement in the above List will be recorded in supplemental lists.

KEY TO THE REGISTER.

THE Equipment of vessels is designated by the Figure 1, and by a line thus —

The figure 1, signifying that the vessel is well and sufficiently found.

The line — that she is deficient in either quantity or quality.

Defects or inefficiency in engines or boilers of a Steam Ship sufficient to imperil the vessel's safety are indicated by a *red* ring over the figure 1.

Defects or inefficiency in masts or rigging of a Sailing Ship sufficient to imperil the vessel's safety are indicated by a *black* ring over the figure 1.

Vessels RESTORED to, or CONTINUED on, the Character A, will have the number of years for which they are Restored or Continued, with the name of the Port of Survey, inserted separately under the number originally assigned, in the twelfth column; thus—Rest.Lon.80-5yrs, or Cont.Liv.80-3yrs. Where the term in the case of Continuation has expired, the letter "C" only will be placed before the figure denoting the number of Years for which Continuation had been allowed; thus—C 3.

Vessels opened as required by the Rules, will be marked in the Register "S.S." with the number of years that may elapse before they are again opened, and the year of survey; thus—"S.S.Cly.80-4yrs." (*See* Section 61.)

Vessels marked "S.S." with a date, *in red*, denote that they have been surveyed at that time in accordance with the Rules, Section 60; thus—"S.S.Sld.80-5yrs" (in red ink).

The mark [*B.S.*] denotes that the vessel is classed subject to *Biennial Survey*. The mark [*Expl. B.S.*] denotes that the vessel is built *Experimentally*, and classed subject to *Biennial Survey*. (*See* Section 31.)

The mark *t.s.* with a date, denotes that the vessel has been submitted to Triennial Survey as prescribed by Rules for Iron Ships; thus, *t.s.* 80.

The marks *s.s.*Nwc.*No.*1-80 — *s.s.*Hul.*No.*2-80 — *s.s.*Lon.*No.*3-80 denote that the vessels have been submitted to periodical surveys, as prescribed in the Rules for Iron Ships.

The initials H.T. (*Half-time*) with the date of Survey prefixed, thus—H.T.Lon.80, denote that the Half-time or intermediate Survey required by the Rule, Section 34, has been held.

The figures in the thirteenth column, to vessels in the classes A in red, Æ or E class, imply that they were originally classed A, for that number of years. The cipher 0 in this column indicates that (from inferior construction) there were NO "number of Years first assigned."

The broad A signifies that the vessel is built of Iron.

The note * prefixed to A, thus—*A, signifies that the vessel has been built with heavier plating than the Rules *now* require.

Ships built under Special Survey as per Section 35 of the Society's Rules will be shown by a cross; thus, ✠. (*See* Section 28.)

KEY TO THE REGISTER — *continued.*

ANCHORS AND CHAIN CABLES.

A.&C.P.—Anchors and Chains proved at a *Public Machine recognised by the Committee of Lloyd's Register and licensed by the Board of Trade.*—(*See Table No.* 22 *in the Rules.*)

L.A.&C.P.—Anchors and Chains which have been tested at those Establishments *which are under the Superintendence of the Committee of this Society, and also licensed by the Board of Trade.*

ANCHORS and CHAIN CABLES manufactured abroad and supplied to *foreign owned vessels* will, under the conditions set forth in Section 72 of the Rules, be accepted for the figure 1 in classification, but, in these cases, the record of A.&C.P. will not be made in the Register Book.

In the Fourteenth Column.

The character A denotes the Class of New Wood and Composite Ships, or ships Continued, or Restored. (*Vide* Sections 34, and 54 to 59 of the Rules.)

The character A, in Red, denotes ships which have passed the period assigned on the original Survey, or Continuation, or Restoration, and ships, not having had an original character, provided they are found on survey of superior description, fit for the conveyance of dry and perishable goods, *to and from all parts of the world.* (*Vide* Section 60 of the Rules.)

The character Æ denotes ships which have been found on Survey fit for the safe conveyance of dry and perishable goods on *shorter voyages*, and for the conveyance of cargoes *not* in their nature subject to sea damage on *any voyage*. (*Vide* Section 61 of the Rules.)

The character E denotes ships which have been found on Survey fit for the conveyance of cargoes not in their nature subject to sea damage *on any voyage*. (*Vide* Section 64 of the Rules.)

The Figures under a Character denote the date when the vessel was last surveyed.

When printed in Red (except in the case of Vessels classed A 1 *in Red), they indicate that the Survey has reference to the Stores only.*

FOREIGN BUILT SHIPS.—CLASSED **F.** (*Vide* Section 83 of the Rules.)

The character **1 F** denotes ships which have been found on survey to be of a superior description, fit for the conveyance of dry and perishable goods to and from all parts of the world.

The character **2 F** denotes ships which, although not equal to the foregoing, have nevertheless been found on survey to be in a good and efficient condition, and fit for the conveyance of dry and perishable goods, on shorter voyages.

The twelfth, thirteenth, and fourteenth Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 *three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column* 14 *a black line with date under it (thus* $\overline{3,82}$*) indicates that, at that date, the Vessel,* from reported defects, *was not entitled to a Character in the Register Book. A red line with date under it indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad* A *that the Vessel is built of Iron. The note* * *(thus* *A*) *that the Vessel has been built with heavier plating than the Rules now require. A ring, in red, over the figure* 1 *indicates defects in engines or boilers of a Steam Ship imperilling the Ship's safety; a ring, in black, over the figure* 1 *indicates defects in masts or rigging of a Sailing Ship imperilling the Ship's safety.*

When the fourteenth column is left blank except as regards the date of Survey last recorded, it indicates that the Character has expired or been withdrawn from absence of Survey, or on account of non-payment of fee due in the case.

EXPIRATION OF CLASS OF WOOD SHIPS.—EXTRACT FROM SECTION 59 OF THE RULES.

* The terms of years assigned to ships on the Character A, launched *previously to the* 1*st July*, 1859, also of ships launched during the *first* six months of the years 1860, 1861, 1862, and 1863, will expire on the 31st December of the last year of the periods assigned to them respectively.

The terms assigned to ships launched during the *last* six months of the years 1859, 1860, 1861, and 1862, will expire on the 30th June next after the last year of the periods assigned to them respectively.

In the case of ships launched on and after the 1st July, 1863, the period originally assigned to them on the A 1 character, will in every case *date from the month* in which the vessel may be launched, and will expire at the end of the corresponding month in the year at which the period assigned terminates.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. acp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. ○ The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. -|- indicates Special Survey of Machinery or Boilers during construction, (thus, -|-L.MC., -|-N.E.&B.) lrp.—Large repairs. drp.—Damage repairs of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. ○ The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. ○ The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs, drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction,* (thus, ✠L.MC., ✠N.E.&B.) drp.—*Damage repairs, of Machinery.* lrp.—*Large repairs.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.M.C.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.M.C., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.M.C.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.M.C., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3.82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. ○ The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulk Hds. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs, drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠-L.MC., ✠-N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

H.J.K.F.			—												

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request.* *In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel,* from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The broad A, that the Vessel is built of Iron.* *The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require.* *A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Column 1, the ✠ signifies that the Vessel was built under Special Survey.* *B.Hds.*—*Bulkheads.* Cem.—*Cemented.* Asp.—*Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that one time Classed by this Society, but that the Class has been withdrawn at owner's request. a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, $\frac{}{3,82}$) indicates that, at that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, $\frac{3,82}{}$) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A1) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs, drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors lically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required 'ts where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection o the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors earliest opportunity.

The *Date of Survey* of a ship only certifies to the efficiency thereof at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby ated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at this date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⌓, that the Vessel is built of Iron. The note * (thus, *⌓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3.82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ▲, that the Vessel is built of Iron. The note * (thus, *▲) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A1) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was of one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. ○ The broad △, that the Vessel is built of Iron. The note * (thus, *△) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. lrp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⌓, that the Vessel is built of Iron. The note * (thus, * A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs, drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ L.MC., ✠ NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalte.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠L.MC., ✠NE.&B.) lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.M.C.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.M.C., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at this date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A1) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkh'ds. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus,) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. lrp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request.* *In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The broad A, that the Vessel is built of Iron.* *The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Column 1, the ✠ signifies that the Vessel was built under Special Survey.* *B.Hds.—Bulkheads.* Cem.—*Cemented.* Asp.—*Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.M.C.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.M.C., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. Dam.—Damage repairs of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with less plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* drp.—*Damage repairs. of Machinery.* lrp.—*Large repairs.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3.82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier Plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalte.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⌒, that the Vessel is built of Iron. The note * (thus, *⌒) that the Vessel has been built with keavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⌓, that the Vessel is built of Iron. The note * (thus, *⌓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⌓, that the Vessel is built of Iron. The note * (thus, *⌓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalte*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⌓, that the Vessel is built of Iron. The note * (thus, *⌓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12*th*, 13*th*, *and* 14*th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column* 13 *three dots* ••• *indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column* 14 *a black line with date under it* (*thus,* 3,82) *indicates that, at the date, the Vessel,* from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it* (*thus,* 3,82) *indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad* ⩓, *that the Vessel is built of Iron. The note* * (*thus,* *⩓) *that the Vessel has been built with heavier plating than the Rules now require. A ring in red* (○) *over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black* (○) *in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column* 1, *the* ✠ *signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (*thus,* ✠L.MC., ✠N.E.&B.) *lrp.—Large repairs. drp.—Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠S.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalte*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. ○ The broad △, that the Vessel is built of Iron. The note * (thus, *△) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3/82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 8/82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sail Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt*

L.M.C.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.M.C., ✠N.E.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ▲, that the Vessel is built of Iron. The note * (thus, *▲) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalte.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (C) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ L.MC., ✠ N.E.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalted.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&M.S.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heavier plating than the Rules now require. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at t date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn f non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with heat plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sail Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B.&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.)* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with less plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) drp.—Damage repairs, of Machinery. lrp.—Large repairs.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asp*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel has at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, $\frac{}{3.82}$) indicates the date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, $\frac{}{3.82}$) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad ⚓, that the Vessel is built of Iron. The note * (thus, *.82) that the Vessel has been built of heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠N.E.&B.) lrp.—Large repairs, drp.—Damage repairs, of Machinery.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ••• indicate that the Vessel was one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, date, the Vessel, from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn non-compliance, at that date, with the Society's Rules. The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with plating than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulk Hds. Cem.—Cemented. Asp.—Aspl*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The note * (thus, *) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&M.S.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors ually (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required s where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection the satisfaction of the Society's Surveyors. Ships repaired at ports where there is no Surveyor to this Society, must be surveyed by one of the Society's Surveyors arliest opportunity.

The *Date of Survey* of a ship only certifies to the efficiency thereof at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby ed that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests he Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. ○ The broad ⩓, that the Vessel is built of Iron. The note * (thus, *⩓) that the Vessel has been built with heavier plating than the Rules now require. A ring in red ( ) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Aspha*

L.MC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NE.&B.) lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. In Column 14 a black line with date under it (thus, 3,82) indicates that, at date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,82) indicates that the Class was withdrawn for non-compliance, at that date, with the Society's Rules. The broad A, that the Vessel is built of Iron. The note * (thus, *A) that the Vessel has been built with additional scantlings, &c., to a higher class than the Rules now require. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Ship, imperilling the Ship's safety. In Column 1, the ✠ signifies that the Vessel was built under Special Survey. B.Hds.—Bulkheads. Cem.—Cemented. Asp.—Asphalt.*

L.MC.—Machinery Constructed by the Engineer-Surveyors to Lloyd's Register. B.&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠L.MC., ✠NB.&B.) drp.—Damage to Machinery. lrp.—Large repairs.
